Experience

Chaturbots / founder
AUGUST 2017 -PRESENT, SURAT
- Built a NLP powered chatbot platform to assist customer support agents. ([Github](#))
- Created a youtube channel "[ChaturBots NLP Tutorials](#)"
- Participated in Nasscom Product Conclave and Vibrant Gujarat Startup Summit 2018.
- Selected by Google Cloud Startups and DigitalOcean Hatch Startup program.(Received 3000 USD and 500 USD in credits respectively)
- Incubated by ASHINE and received seed grant for my startup.

Instarem/ intern
May-15th- July15th 2017

Created a chatbot for instarem (remittance based fintech startup) which would enable easier flow of communications to the customer support.

Skills Acquired : - Dialogflow, Python

Projects

friendyoke.com
JANUARY 2009 - DECEMBER 2010

I built a social networking website in ASP.NET, C# and Telerik.I devised new methods to have loading time as slow as possible. The social networking website was stripped of some of the features and was transformed into our school's Alumni Portal.
Github Link:- https://github.com/vaibhavgeek/friendyoke

Skills Acquired :- ASP.NET, C#, AJAX, Telerik Tools, Jquery

edunova.io
AUGUST 2015 - MARCH 2016

Edunova is a social, game based and a community based platform to share educational content and meet with learners having same interests. It is built using Ruby on Rails and Bootstrap.

It stood third in Nasscom TechNgage - Pune, where it won a cash prize of 1 Lac INR.

Github Link :- https://github.com/vaibhavgeek/edunova

Skills Acquired: Ruby on Rails, Ruby, MVC, Bootstrap, JQuery

MathBot Tutor
2018 - current

Built an artificially intelligent chatbot which could generate questions and options. For the generation of answers I used wolfram alpha API. The chatbot was built on top of messenger is live at [m.me/mathtutorbot](#). It has 5000 + users as of 1st Jan'18.

Selected for FbStart Startup Campaign and 40,000 USD in credits..
